AASHTO_Construction Handbook for Bridge Temporary Works

In 2013, this set of AASHTO Core Data Principles was adopted by the data and planning community. The principles were developed and vetted by the SCOP data sub-committee, the CTPP oversight board (data community), and US DOT data leadership. The principles have been vetted through SCOP, and key state and federal transportation data staff.

AASHTO Core Data Principles - Transportation.org

AASHTO serves as a liaison between state departments of transportation and the Federal government. AASHTO is an international leader in setting technical standards for all phases of highway system development. Standards are issued for design, construction of highways and bridges, materials, and many other technical areas.

Organization - Transportation.org

The AASHTO LRFD Bridge Construction Specifications are intended for use in the construction of bridges. The specifications employ the Load and Resistance Factor Design (LRFD) methodology, and are designed to

be used in conjunction with the AASHTO LRFD Bridge Design Specifications.
