

axis blockade runners of pdf

A blockade runner is a merchant vessel used for evading a naval blockade of a port or strait. It is usually light and fast, using stealth and speed rather than confronting the blockaders in order to break the blockade. Blockade runners usually transport cargo, for example bringing food or arms to a blockaded city.

Blockade runner - Wikipedia

Operation Stonewall was a World War II operation to intercept blockade runners off the west coast of German-occupied France. It was an effective example of inter-service and international co-operation.
