Death is the cessation of all biological functions that sustain a living organism. Phenomena which commonly bring about death include aging, predation, malnutrition, disease, suicide, homicide, starvation, dehydration, and accidents or major trauma resulting in terminal injury. In most cases, bodies of living organisms begin to decompose shortly after death.

Every spring, as soon as the ground stops freezing, I stop wearing shoes. Every year I become more convinced that shoes are completely unnecessary in most circumstances. I believe that the human foot is perfectly designed for walking and running on almost any terrain without being enclosed in a shoe. As a result, here are thirteen reasons I prefer to go barefoot.
