

humor book laughter in pdf

Laughter is the biological reaction of humans to moments, or occasions of humor. It is an outward expression of amusement. On average, a child laughs 300 times a day while an adult laughs only 17 times a day. The majority of men report that their laughter is a chuckle, and the majority of women report that theirs is a giggle.

Humor Theory: Formula of Laughter - Google Books

A comic novel is usually a work of fiction in which the writer seeks to amuse the reader, sometimes with subtlety and as part of a carefully woven narrative, sometimes above all other considerations. It could indeed be said that comedy fiction is literary work that aims primarily to provoke laughter, but this isn't always as obvious as it first...
