improving pedestrian safety at pdf

A pedestrian is a person travelling on foot, whether walking or running. In some communities, those traveling using tiny wheels such as roller skates, skateboards, and scooters, as well as wheelchair users are also included as pedestrians. In modern times, the term usually refers to someone walking on a road or pavement, but this was not the case historically.

Walkability is a measure of how friendly an area is to walking. Walkability has health, environmental, and economic benefits. Walkability Is Good for You Factors influencing walkability include the presence or absence and quality of footpaths, sidewalks or other pedestrian rights-of-way, traffic and road conditions, land use patterns, building accessibility, and safety, among others.
