

international trade and food pdf

The relationship between food security and international trade is highly complex and policy directions are not always straightforward or unified across countries. There are many factors to consider. For example, trade barriers can restrict food availability in regions experiencing food deficits, leading to higher prices and reduced access to food.

Food security and international trade - Home | Food and

for Co-operation in Agriculture), Food Safety in International Agricultural Trade (Costa Rica, 1999). Spencer Henson (shenson@uoguelph.ca) is an associate professor in the Department of Agricultural Economics and Business, University of Guelph, Canada.
