Internet Services. e-commerce shopping cart packages with real time credit card processing; web site and database design and development, as well as web site hosting. We specialize in Winery and B2B solutions.

Internet e-commerce shopping carts; web, email, and

With the most Internet users of any country, China is the world's largest and fastest-growing e-commerce market. Capitalizing on opportunities, however, is becoming harder for consumer-facing companies as e-commerce penetration rates plateau in high-tier cities and as digital attackers, especially in the online-to-offline space, cut into incumbents' margins.

FACTORS INFLUENCING CONSUMERS' ATTITUDE TOWARDS E-COMMERCE

3 Existing authentication methodologies involve three basic "factors":
• Something the user knows (e.g., password, PIN);
• Something the user has (e.g., ATM card, smart card); and
• Something the user is (e.g., biometric characteristic, such as a fingerprint). Authentication methods that depend on more than one factor are more difficult to compromise

Authentication in an Internet Banking Environment

to fraud and thus increase certain costs for e-commerce merchants as compared to traditional stores. New techniques are being developed to protect the use of credit cards in e-commerce
