Oracle Code One 2018. Java offers developers a contemporary language and platform to create the next generation of rich, scalable, and secure enterprise applications.

### **Java Software | Oracle**

Java is a general-purpose computer-programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers "write once, run anywhere" (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.
