A black-body is an idealised object which absorbs and emits all radiation frequencies. Near thermodynamic equilibrium, the emitted radiation is closely described by Planck's law and because of its dependence on temperature, Planck radiation is said to be thermal radiation, such that the higher the temperature of a body the more radiation it emits at every wavelength.

Journal of Marine Science and Engineering (ISSN 2077-1312) is an international peer-reviewed open access journal of marine science and engineering published monthly online by MDPI.. Open Access - free for readers, with article processing charges (APC) paid by authors or their institutions.; High visibility: Indexed in the Science Citation Index Expanded in Web of Science and Inspec (IET).

Journal of Marine Science and Engineering - JMSE MDPI

In mathematics, a differential-algebraic system of equations (DAEs) is a system of equations that either contains differential equations and algebraic equations, or is equivalent to such a system. Such systems occur as the general form of (systems of) differential equations for vector-valued functions x in one independent variable t , $(\ddot{E}^T, \dot{E}, E) = \text{where } : [.,] \hat{+}$ ' is a vector of dependent ...

Differential-algebraic system of equations - Wikipedia

The Table of Contents lists the main sections of the Mathematics Subject Classification. Under each heading may be found some links to electronic journals, preprints, Web sites and pages, databases and other pertinent material.
