Introduction. This manual is the basic textbook for anyone writing an ASTM standard. A study of Parts A, B,  
C, or E will show the proper form for the principal types of standards including a detailed explanation of how  
to write each section, from the title to the appendixes. Within Parts A, B, C, and E, the first section lists the  
preferred sequence of headings and indicates whether these ...

Research comprises "creative and systematic work undertaken to increase the stock of knowledge, including  
knowledge of humans, culture and society, and the use of this stock of knowledge to devise new

applications." It is used to establish or confirm facts, reaffirm the results of previous work, solve new or existing problems, support theorems, or develop new theories.
