Logic Models are a popular tool that can be used to help conceptualize your change effort. It does this by inviting the author(s) to articulate their understanding of the current situation, the changes they hope to bring about through their program effort, with and/or for whom, the activities planned to contribute toward this change, the resources needed to put into the effort, assumptions they ...

An art model poses for any visual artist as part of the creative process, providing a visual reference for the human figure in a work of art. However, more than being simply the subject of art, models are often thought of as muses, a source of inspiration without whom the art would not exist. The most common types of art works that use models are figure drawing, figure painting, sculpture and ...

Abiogenesis, or informally the origin of life, is the natural process by which life arises from non-living matter, such as simple organic compounds. The transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular self-replication, self-assembly, autocatalysis and cell membranes.
