Experimental music is a general label for any music that pushes existing boundaries and genre definitions (Anon. & n.d.(c)). Experimental compositional practice is defined broadly by exploratory sensibilities radically opposed to, and questioning of, institutionalized compositional, performing, and aesthetic conventions in music (). Elements of experimental music include indeterminate music, in ...

The New Wave is a movement in science fiction produced in the 1960s and 1970s and characterized by a high degree of experimentation, both in form and in content, a "literary" or artistic sensibility, and a focus on "soft" as opposed to hard science. New Wave writers often saw themselves as part of the modernist tradition and sometimes mocked the traditions of pulp science fiction, which some of ...

7 - 2 Introduction to Sampling The way in which we select a sample of individuals to be research participants is critical. How we select participants (random sampling) will determine the population to which we may generalize our research

Step 1. Defining the Population Step 2. Constructing a

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
