that day in and day out if you're learning a foreign language.) How can children be so quick at guessing a new word's meaning? At the beginning, they seem to rely on a couple of simple strategies. One is to assume that new words refer to objects, rather than to color, or texture, or activities.

### **How children learn language—what every parent should know**

If you took French in school, you might remember that liaison is the term for the phenomenon that causes a silent consonant at the end of one word to sound like it begins the next word when that word begins with a vowel, so that a phrase like beaux arts sounds like boh zahr. We can thank French for the origin of the term, as well.
