

political legitimacy and the pdf

In political science, legitimacy is the right and acceptance of an authority, usually a governing law or a regime. Whereas "authority" denotes a specific position in an established government, the term "legitimacy" denotes a system of government wherein "government" denotes "sphere of influence". An authority viewed as legitimate often has the right and justification to exercise power.

Legitimacy (political) - Wikipedia

Political freedom (also known as political autonomy or political agency) is a central concept in history and political thought and one of the most important features of democratic societies. Political freedom was described as freedom from oppression or coercion, the absence of disabling conditions for an individual and the fulfillment of enabling conditions, or the absence of life conditions ...

Principles of critical discourse analysis - Teun A. van Dijk

This book offers a compelling view of the future of international legal reasoning and legal theory. It offers a critical analysis of the prescriptive norms and institutions of modern international law and argues that

international law has the capacity to advance, in practice, the abstract social values shared by the community of states and persons.
